

PTT M327

The PlusPTT M327 combines the benefits and convenience of a rugged two-way radio with the distinctive features of a professional POC system. With 2GB RAM-16GB ROM and powerful MTK6761 processor, the M327 is far beyond its peers in technology. Besides having 2.45" IPS touch screen, it supports WiFi and Bluetooth. M327 also has a 3558 Runway type 5W speaker for clear and loud announcements. Supporting external camera, PTT footswitch and Bluetooth PTT buttons, M327 provides optimum usability and reliable communication.

- 5W Speaker
- WiFi/Bluetooth/SOS
- GPS/Precise Positioning
- Best in Class with Exceptional Performance

ANDROID 11.0 WITH A POWERFUL PROCESSOR

An up-to-date operating system running on a 2.0GHz processor allows it to seamlessly support the installation of other business applications on the device.

PRECISE LOCATION TRACKING

Supports real-time location tracking with PlusPTT Dispatch Application. M327 has an external GPS antenna.

IPS TOUCH SCREEN

The 2.45" touch screen provides easy operation.

WiFi-BLUETOOTH

Supports WiFi networks operating at 2.4GHz and 5GHz, as well as Bluetooth Low Energy.

HIGH-QUALITY SPEAKERS

High-quality speakers with a 5W output power ensure efficient operation even in noisy workplaces.

EXTERNAL ACCESSORY SUPPORT

M327 supports a wide range of accessories, including external camera, external speaker, PTT footswitch, and Bluetooth PTT button.

EMERGENCY ALERT

One-touch SOS button allows you to send alarm to both the Dispatch Console and other users.

AREAS OF USE

M327 mobile POC device is appropriate for use in public security, municipalities, transportation, and logistics.
